

# Fever Detection & Thermal Imaging Solution

## Why Choose CERTIFY?

The CERTIFY SnapXT measures an individual's temperature in less than one second. Our predefined workflows can be customized to alert personnel of individuals with a temperature that exceeds the threshold your organization sets.

## For Organizations Large and Small

CERTIFY has been working with top brands across the globe since 2012 to provide a best-in-class solution that helps solve labor-related challenges across different industries.

## Achieve a Better Way to Work

- Anonymous Imaging
- Semi-Anonymous Imaging
- Identified Imaging
- COVID Symptom Questionnaires
- Policy Enforcement
- QR Code Utilization
- Access Control
- Facial Recognition

## Customized for Your Company's Needs

Take measures to monitor your organization by enabling a customized health screening that all members are required to fill out before the SnapXT grants them access through the doors.

## Security

CERTIFY's security approach focuses on governance, risk management, and compliance. This includes encryption at rest and in transit, network security and server hardening, administrative access control, system monitoring, alerting, and more. CERTIFY is HITrust, ISO 27001, and HIPAA compliant.

## Manage and Track Data Easily

View all important information regarding your imaging devices on one digital platform. Keep track of unlimited devices, store temperatures, and manage members, all with 24/7 support if needed.

## Contact Tracing

In the COVID-19 era, organizations should add health monitoring mechanisms in their workspace. The All Access option of CERTIFY.me Cloud offers contact tracing included for 100 members per month.

## Satisfied Customers

"We truly feel this new technology will ensure that they are able to stay, play, and work safely at our resort – destination."  
**Joe Lupo** | President of the Hard Rock Hotel & Casino Atlantic City
